City Buddy

Kshitij Sharma, Priyanka Kadam, Neerav Poriya, Tiffany Hatzidimitriu and Zo DiSanto

Summary from testing:

Create a list (at least 10) of questions to ask what will set the user up for success for Research proposal -

Example: *How does user feel when doing X, Y, and Z in the City Buddy*

- Don't be too general.

Research Questions

Neerav -

1. Do you believe that language settings are rightly placed inside the profile section (One time thing) **If you want to change the language of this app, how would you do it?**
   a. would you like to see it on the home page, so that it is more accessible?
2. Are the warning signs on service status noticeable, or would you like to change it? (For a solution, we can give a ripple effect, and will attach the video in our discord channel). **Walk me through what you are seeing on this HomePage.**
3. How was your overall experience with the app? Do you have any feedback?

Kshitij -

1. How do you currently deal with the metro/bus delay problem? How do you feel about this community feature in the City Buddy app? **What do you like to share with other City Buddy app users?**
2. Can you see yourself using City Buddy in your day-to-day life?

Priyanka -
1. Do you need a tap-to-pay feature? **What are your thoughts on it**
2. What would you change about the way the directions are displayed? **How would you like to have directions in any app?**

Tiffany -
1. Would you add updates to a community feature? What would compel you to do so?
2. How would you delete a saved route?

Zo -

1. If you wanted to change any of your settings, for example update your password, how would you do so?
2. If your mode of transportation was delayed, and City Buddy doesn't include the option, how would you add a new option?
